WHAT IS BBD TOKEN (BBD)? — OFFICIAL PUBLIC ONE-PAGER

Buffalo Biodiesel Inc. (Est. 2005) • Base Mainnet ERC-20 Utility Asset: `0x3a3c13AEd283d7Ae0A0Fa4C1858e21dfe9a2c564` • Official Benchmark: $5.00 USD

1. DEFINITION OF A TOKEN & OVERVIEW OF BBD TOKEN

A **blockchain utility token** is a transferable digital unit recorded on a public ledger (Base Mainnet) that functions like a tradable commercial voucher or settlement credit. **BBD Token (BBD)** can be freely bought, held, and sold on compatible digital asset exchanges and decentralized liquidity pools (such as Uniswap v3 and Coinbase Wallet) and used directly at a **$5.00 USD commercial benchmark** to purchase **Buffalo Biodiesel Inc.** products, recycling services, facility utilities, carbon credits (including Puro.earth), federal and state credits, and all available credits currently or in the future.

2. WHAT BBD TOKEN IS VS. WHAT IT IS NOT (WHY IT IS NOT A SECURITY)

Under U.S. Supreme Court law (*SEC v. W.J. Howey Co.* and *United Housing Foundation, Inc. v. Forman*), an instrument designed and used to purchase commercial goods, energy, services, and environmental or statutory credits is a **consumptive utility asset—not a security**.

What BBD Token IS (Commercial Utility Asset)	What BBD Token IS NOT (Not a Security or Stock)
A Tradable Commercial Purchasing Token: Can be bought and sold on coin exchanges and redeemed at $5.00 USD parity for Buffalo Biodiesel goods, energy, services, and utilities.	**NOT Corporate Stock or Equity:** Confers **0% ownership** in Buffalo Biodiesel Inc., a privately held New York C-Corporation, and carries zero claim on corporate shares or assets.
A Carbon, Puro, Federal & State Credit Settlement Unit: Used to purchase, claim, or retire carbon credits—including Puro.earth (`CORC`) biochar removal credits, ISCC attributes, federal and state credits, and all available environmental and tax credits currently or in the future (`burnToRetireAttributes`).	**NO Dividends, Revenue Splits, or Passive Yield:** Does not pay holders a percentage of corporate sales revenue, interest, dividends, or profit distributions.
Backed by a 15% On-Chain USDC Floor Vault: Direct smart-contract treasury purchases lock 15% of incoming USDC into an automated on-chain redemption floor (`redeemForUsdcFloor`).	**NO Corporate Voting Rights or Discounted Insider Pre-Sales:** Confers zero corporate governance votes and had zero discounted VC/seed pre-sales (uniform $5.00 USD benchmark).
Strictly for Utility Sales (Tranche 1 Commercial Inventory): The 100,000,000 BBD Tranche 1 supply is commercial inventory held in the 3-of-5 Corporate Safe solely to supply customer product/credit off-take and exchange liquidity at $5.00 USD parity.	**Separate Vehicle for Any Future Investment Raise:** BBD Token is strictly for utility sales. If the Company ever desires to raise capital for investment purposes, it will use a separate vehicle (such as a traditional private placement)—never BBD Token.

3. CURRENT & ANTICIPATED PRODUCTS, SERVICES, UTILITIES & CREDITS

Utility Pillar	Current & Anticipated Deliverable	How BBD Token Is Used ($5.00 USD Commercial Benchmark)
1. Energy & Bio-Products	**Used Cooking Oil (UCO)**, **Biochar**, **Green Electricity**, and **Renewable Natural Gas (RNG)**	Redeemed by refineries, agricultural buyers, microgrid/compute tenants, and industrial off-takers for refined UCO feedstock, pyrolysis biochar, kWh/MWh electricity, and RNG/biogas.
2. Specialty Green Chemicals	**Form Release**, **Degreasers**, and **Biogas Booster (BBB-WDG)**	Used by construction, fleet, municipal, and anaerobic digester operators to buy zero-VOC asphalt/concrete form release, potassium oleate degreasers, protective coatings, and digester catalysts.
3. Recycled-Material Product Family	**Steel Slag** Products, Anaerobic **Digestate** & Recycled Materials	Used to purchase green construction aggregates, cementitious binders, and soil conditioners manufactured from repurposed steel slag, organic digestate, and recycled industrial streams.
4. Recycling Services, Rent & Facility Utilities	**Wood Recycling**, Commercial **Rent**, **HVAC** & Campus Utilities	Used to pay for waste wood and biomass tipping/recycling services, industrial property rent, waste-heat absorption HVAC (heating & cooling), power, and utilities across BBD campuses.
5. Carbon, Puro, Federal, State & All Available Credits	**Carbon Credits (Including Puro.earth)**, **Federal & State Credits** & All Available Credits Currently or in the Future	Used to purchase or permanently retire on-chain (`burnToRetireAttributes`) carbon reduction and removal credits (including Puro.earth `CORCs` and ISCC attributes), federal and state clean-energy/environmental/tax credits, and all available credits currently or in the future.

Verified Corporate Governance & 12 Operating Locations: Issued by **Buffalo Biodiesel Inc.** (NY C-Corp, Est. Aug 12, 2005 • FEIN: 11-3757608 • UEI: GD3SYL38LJB1 • Tel: 1-800-721-1427). **Board of Directors:** Sumit Majumdar (Chairman of the Board, Founder & Executive Director), Frank V. Balon, Esq. (President, CLO & Director), Tom George (COO & Director), Scott Yerger (CSO & Director), and Martha Howard (Controller & Director). **3-of-5 Corporate Safe:** `0xe956bFaD1f088BC2A79cAF90115027Fb2015b16B`. **Facilities:** Corporate HQ (17 Court St., Buffalo, NY), Main Plant (225 Sawyer Ave., Tonawanda, NY), Repair Facility (318 Sawyer Ave., Tonawanda, NY), Biochar/Chemical Campus (703–717 Elk St., Buffalo, NY), plus Albany, Ewing (NJ), Highland, Modena, Pittsburgh (PA), Springfield (OH), Syracuse, and Toledo (OH) Stations.
